U.S. BEEF BREEDING CATTLE EXPORTS DECLINED NEARLY 50 PERCENT IN 1975

U.S. beef breeding cattle exports in calendar 1975 totaled 22,238 head or about 53 percent of the calendar 1974 level of 41,999. Although exports of all major U.S. breeds declined in 1975, the largest decrease occurred in the sale of Crossbreeds, which declined from nearly 11,000 in 1974 to fewer than 3,000 in 1975–nearly all because of the drop in imports of Crossbreeds by Canada.

Canada showed a substantial decline in imports of all major U.S. beef breeds–only 6,645 head in 1975, compared with nearly 20,000 in 1974.

Mexico, which had been the second most important customer, moved into first place with imports of over 8,000 head of cattle.

Prior to 1975, Canada had been the leading importer of U.S. beef breeding cattle for 6 consecutive years, averaged over 10,000 head annually compared with Mexico's fewer than 6,000.

The importance of these two countries is reflected by the fact that during the 1969-75 period they accounted for two-thirds of total U.S. beef breeding cattle exports. The highest percentage–72–occurred in 1973 and the lowest–53–in 1969.

Other countries of importance to U.S. exports of beef breeding stock in 1975 were the Republic of South Africa (1,828 head), Venezuela (1,408), Thailand (658), Argentina (542), Guatemala (455), and Brazil (433). Except for the leaders–Mexico and Canada–the importance of countries tends to change from year to year. For example, in 1974 Hungary was third in importance with imports of more than 2,500 cattle, but was insignificant in 1975, importing only 26.

In 1975 Charolais was the top export breed (5,940 head), Brahman a close second (5,084), Crossbreeds (2,939), Hereford (2,571), Santa Gertrudis (1,744), and Angus (1,317). These six breeds, out of a total of 25, accounted for over 90 percent of total U.S. beef breeding cattle exports in 1975. Over the past 7 years Hereford showed the biggest change, going from about 13,000 in 1969 (over 40 percent of total U.S. beef breed exports) to fewer than 2,600 in 1975 (slightly more than 10 percent).

U.S. beef breeding cattle were exported to 37 countries in 1975, one fewer than in 1974. The Brahman was most popular, going to 22 countries (26 in 1974), followed by Crossbreeds and Hereford (17 each) and Charolais and Santa Gertrudis (13 each).

Among U.S. beef breeding States, Texas ranked first, with exports of more than 12,000 head in 1975 --over half (55 percent) of the total U.S. beef breeding cattle exported in 1975. Three other States had exports of over 1,000 each: Montana (2,661), Florida (1,357), and North Dakota (1,200).
